East of Scotland Farmers - At the heart of farming in Strathmore, but not just for farmers...

Lodi Anti Rodent Spray (500ml)

The go-to solution for keeping rats and mice away from valuable equipment—especially combines and other machinery vulnerable after harvest.

Formulated to deter rodents without damaging components, this spray creates a long-lasting protective barrier that's ideal for use in barns, sheds, and machinery storage areas.

Perfect for use post-harvest

Safe on wiring, rubber, and plastic parts

Fast, easy application

Helps prevent costly rodent damage

LodiUK

STARTECT Dual Active Oral Solution for Sheep is a broad-spectrum, short-acting oral drench designed to control mixed gastrointestinal nematode infections.

It combines two active ingredients, Derquantel (Group 5-SI) and Abamectin (Group 3-ML). Both effectively target worms, including those resistant to other treatments. This dual-action approach helps manage resistance and supports overall flock health and productivity.

As one of the newer wormer groups, Zolvix, the orange group 4-AD wormer, should be used in every flock, every year for two specific purposes:

Quarantine treatment for all incoming and returning stock: following the right protocol as is important as using the right product.

A mid to late season dose for all lambs present at that time (finishing, replacements and stores) in the latter part of your farm's grazing season when a worming treatment is needed - the Break Dose.

VITAL ENERGY TO SUPPORT FERTILITY

Ideal balance of energy, minerals, vitamins and trace elements in a palatable lick

HARVEST ESSENTIALS

Brushes & Shovels
Crop Packaging
Grease & Oils
Moisture Meters
Ratchet & Straps
And more!

DON'T FORGET TO FAECAL EGG TEST!

A quick reminder to **faecal egg test your animals** — especially lambs at this time of year. Testing is a crucial step in monitoring parasite burdens and helps reduce the risk of **anthelmintic resistance** on your farm. We can test **sheep, cattle, horses, and alpacas**. Regular testing supports better animal health, more targeted worming, and long-term sustainability. Get in touch to book your tests or find out more!
