East of Scotland Farmers - At the heart of farming in Strathmore, but not just for farmers...

eWeighDS

iLivestock

NEW SUPPLIER & PRODUCT RANGE

One platform. One goal: an easy way to capture, organise and access your sheep and cattle information. Simple and scalable, award-winning livestock management software and hardware.

Get the job done at a price that suits your pocket. Today we're excited to introduce the eWeighDS! The latest addition to our range of iLivestock connected hardware. Designed for simple, accurate livestock weighing, view weights directly in the crate and crush. Connected to the iLivestock app for seamless record keeping.

Sends weights straight to the iLivestock app from the crate or crush. Scan your animal's EID tag to instantly identify them. Automatically record weight in app, log your records directly from the field, with no admin later.

Tama EZ Web[®]

Better Bales. Easily.

EASY TO BALE EASY TO RECYCLE

EZ Web is removed much more cleanly from the bale, so it's easier to recycle.

EZ Web can be recycled on its own or with any type of Stretchfilm.

Same number of bales and wraps per roll as netwrap

Can be used with all crop types and conditions

Works in ALL balers

NEW
RECYCLEABLE!

EVERYTHING YOU NEED FOR CROP PACKAGING

Get ready for the season with our comprehensive range of crop packaging products. From bale wrap and bale net to silage additives, silage patches and other essential accessories, we have everything you need to keep your operation running smoothly. Speak to our knowledgeable team for advice on the best products for your farm and stock up in store today.

COUNTRY FLY GUARD

With warm weather comes increased risk of flies, midges, and other biting insects that can affect grazing, performance, and overall stock health. Early cases of fly-strike are already being reported, making prevention more important than ever.

At East of Scotland Farmers, our summer mineral licks can include a combination of natural garlic extract and pure garlic to help discourage flies and biting insects naturally. The garlic effect builds over time, so getting buckets out early gives the best results.

Country Fly Guard

To be fed to cattle & sheep at grass to help repel flies and other insects such as midges.

- Key trace elements to enhance forage utilisation and rumen function.
- Highly palatable for good intakes.
- Maximise performance at grass.
- Contains sodium to increase mineral absorption and prevent dehydration in warmer weather.
- Contains multiple garlic sources to help prevent flies and biting insects.
